

## Diaphragm Actuator

In a clamping application, a customer needed lots of force in a very small package. The Bimba team was able to develop a diaphragm actuator with short overall height, allowing the cylinder to fit into the tight space requirement, all while providing minimal friction.

### Specifications

- Cylinder Body: Aluminum
- Diaphragm: 50 Durometer EPDM with reinforced polyester fabric
- Lubrication: Pre-lubricated
- Maximum Operating Pressure: 120psi
- Operating Temperature: 150° F
